About Me

My name is Miguel Montenegro. I am a full stack web developer with a background in many different fields. I am a graduate of the University of Minnesota Coding Bootcamp. I am currently looking for a position as a web developer. I am proficient in HTML, CSS, JavaScript, jQuery, Bootstrap, Node.js, Express.js, MySQL, MongoDB, React.js, and more. I am also a native Spanish speaker. I am a hard worker and a fast learner. I am looking forward to working with you!

Experience

Amazon 2017 - Present
Delivery Driver

As an Amazon Delivery Driver, I am responsible for delivering packages to customers in a safe, timely, and efficient manner. This role requires excellent navigation skills, attention to detail, and a customer-first mindset to ensure a positive experience for Amazon's customers.
In my current role, I have demonstrated a strong work ethic, the ability to work independently, and exceptional problem-solving skills. I have consistently met or exceeded delivery targets, managed delivery routes effectively, and provided exceptional customer service.
Although I enjoy my current role, I am looking forward to pursuing a career in the web development field. I am passionate about using technology to solve problems, and I am excited to learn new programming languages and frameworks to build innovative solutions that make a difference in people's lives.

Education

2023
University of Minnesota
Web Dev Bootcamp

**Full Stack
Development**

During the Full Stack Web Development Bootcamp at the University of Minnesota, I gained hands-on experience in building full-stack web applications using technologies like HTML, CSS, JavaScript, React, Node.js, Express, and MongoDB. I also learned to work collaboratively with other developers using agile methodologies, version control with Git, I utilized Github for issue tracking and version control and Slack for team communication and collaboration during the Full Stack Web Development Bootcamp at the University of Minnesota

Languages

Spanish/English

HTML/CSS
